RICHMOND IS TAKEN BY VETS. IN GRAY

Greatest Reunion In Memory of Old Confederates.

A LOVING CUP PRESENTATION

Senator Daniel Pays Tribute to Memory of President Davis—Mrs. Hays Presented Amidst a Storm of Applause.

Richmond, Va. ,June 3.—The second day of the greatest reunion in the history of the United Confederate Veterans has been rainy and uncomfortably cool, but the bad weather did not seem to have dampened the ardor of the gray clad visitors to the capital of the confederacy.

It has tended to check the influx of people from the surrounding country, but excursion trains crowded with visitors and sightseers have continued to add to the throng within the city's gates. It is officially estimated that there are between 12,000 and 15,000 visiting veterans in Richmond and between 50,000 and 60,000 sightseers.

Twelve Thousand Meals Served.

At Camp Gordon, the tented place of entertainment for the old-time warriors, 12,000 meals were served on Thursday and Friday, and at night two blankets were issued for each cot.

At Grand Camp hall Friday morning proceedings were opened with music by the city high school choir, which rendered "Dixie" and "Auld Lang Syne," the veterans joining in the chorus with enthusiasm.

General Stephen D. Lee presided, and prayer was offered by the Rev. J. W. Finley, a wartime chaplain. The committee on credentials was announced, and it was stated that there were 1,259 camps represented in the convention, the total number of votes being 2,367.

Silver Loving Cup Presented.

General Lee announced the presentation to Chaplain General J. William Jones, by the convention, of a silver loving cup. General Stone, of Missouri, made the presentation speech; Miss Edna Pearl Jewell, of Kansas City, Mo., at his request, making the actual presentation to the famous "fighting parson."

Dr. Jones accepted the gift in eloquent terms.

General Lee than introduced Senator John W. Daniel as "the gallant soldier who bears through life a constant reminder of the awful conflict of 1861-65."

Senator Daniel was received with tumultuous cheers and spoke in tribute to the valor of the confederate soldiers.

"But the courage and gallantry were not on all the side of the confederacy," he said in the course of his address. "Boys, we are of the same race of the yankee and the same spirit which made southern arms glorious incited the hearts of the northerners and their valor was shown in a hundred battles, and they made a worthy foe."

Of Jefferson Davis, the senator said:

"His name is synonymous with that which is great and that which is virtuous. The fame of the president of the confederacy is young yet, but is growing so well knit and so strong that the children of future generations will look to him as a brilliant example."

On the conclusion of Senator Daniel's speech, General Lee presented amidst a storm of applause the daughter of President Davis, Mrs. Hayes. She was accompanied by her two children and they came in for a large share of the cheering.

A Most Striking Feature.

At the confederate museum, the "White House of the Confederacy," there occurred probably the most striking feature of the whole reunion thus far. A reception of veterans, Sons of Veterans, sponsors and visiting Daughters of the Confederacy by the Richmond Daughters and members of the Richmond Memorial association was held, and the house was packed. The old soldiers were shown the war-time relics with which the manison is filled, and were introduced to Mrs. Hayes, President Davis' daughter; Mrs. J. E. B. Stuart, and other prominent confederate ladies. They actually were in the home of their war-time chief, and with them was the only living child of that chieftain; before them were hundreds of tangible evidences of the terrific struggle they had made and the trials they had undergone, the very arms their beloved General Lee had borne, the sash he had worn. The sight was too much for them. Many of them wept; all were deeply affected. The scene was by far the most pathetic of the great gathering of the southern veterans.

FRED BUSH NOT GUILTY.

Atlanta Man Charged with Sending Bomb Is Acquitted.

Atlanta, June 3.—After being out one hour and ten minutes, the jury brought in a verdict Friday afternoon of not guilty in the case of Fred Bush, charged with sending an infernal machine to the McCarthy home, at 447 East Georgia avenue, on the night of May 8.

Since a jury of twelve men have declared that Fred Bush is not guilty of sending a deadly dynamite bomb to the McCarthy home, the question is being asked if the detectives will now try to find some other person who may be suspected of the crime. The verdict so far as the jury is concerned, is paramount to declaring that some other person than Bush sent the bomb. If so, who was it?

Impaled on Picket Fence.

Cartersville, Ga., June 3.—While talking with some friends, B. C. Peters, an employee of the Southern Bell Telephone company, fell over the balustrade of the second-story porch at the Bell hotel Thursday night, and as he dropped toward the ground his body became entangled in a clothes line, was swung outward and impaled on a picket fence. Two of the pickets passed through his body. The man was quickly lifted from the fence and he died an hour later, without regaining consciousness.

Evans May Be Commander.

Richmond, Va., June 3.—Clement A. Evans, of Atlanta, senior general of the confederate veterans of America, will be elected by the grand camp in session here to succeed Chief Commander General Stephen D. Lee, who will decline the honor of re-election by the veterans Delegates from every state represented here are practically united in the movement to elect General Evans. He is one of the honored guests of the reunion and has been the recipient of special attention since his arrival and is the idol of all Georgians who are here assembled.

Ten Negroes on Trial.

Montgomery, Ala., June 3.—Several hundred men were at Troy, Ala., Saturday to attend the trials of ten negroes, charged with the murder of Fox Owen, a prominent young white man two weeks ago. He was murdered while standing in the door of a store, the assassin using a shotgun and firing from the dark. Every negro in the community has been summoned to the trial and it is expected that the name of the murderer will be discovered.

Murder in First Degree.

Roanoke, Va., June 3—At Abingdon, Va., Friday the jury in the case of Noah Fulton, charged with killing John Johnson, near that place last month, brought in a verdict of murder in the first degree. Sentence was not passed. Counsel gave notice of a motion for a new trial. The men quarreled in West Virginia, and after returning to their homes in Virgina, renewed the quarrel, which resulted in the killing.

A GREAT EXPOSITION FOR PACIFIC COAST

Will Be Held at Seattle, Wash., In the Year 1909.

GROUND IS BROKEN SATURDAY

For the Alaska--Pacific-Yukon Exposition—Governors, Legislators and Mayors Attend the Ceremonies—A Gala Occasion.

Seattle, Wash., June 3.—With impressive ceremonies, ground was broken Saturday for the Alaska-Yukon-Pacific exposition ,which will be held here in 1909, opening just two years from date. The day was a holiday.

Seattle presented a gala appearance and amid the blare of trumpets, the marching of a military pageant, inspiring speeches and banquetting, the inauguration of active work on the Pacific world's fair was celebrated. Many prominent men, mayors, legislators, governors and state officials attended the ceremonies and visitors from nearby cities were present.

The Hon. John Barrett, director of the International Bureau of American Republics as the personal representative of President Roosevelt, was the principal speaker of the day and the guest of honor.

President John Edward Chilberg, of the exposition, after appropriate remarks, turned the first spadeful of earth while the band played the "Star Spangled Banner," and the thousands in attendance cheered. The other addresses were delivered by Governor Albert E. Mead, of Washington, and Mayor Moore, of Seattle.

The ceremonies started with a big military parade at noon. It passed through the principal down-town streets and ended at the railroad station where a special train was taken for the exposition grounds.

It is thought by the management that two years of strenuous work on the $10,000,000 world's fair will find it completed in every detail by June 1, 1909, the opening day.

The purpose for which the exposition is held is considered to be worthy of the expenditure of so large a sum. Briefly, its primary object is the exploitation of the resources and potentialities of the Alaska and Yukon territories in the United States and Canada and to make known and foster the vast importance of trade on the Pacific ocean and with the countries bordering on it. The exposition site, which will embrace the unused portion of the campus of the university of Washington, is 250 acres in extent, and borders for more than a mile and a half on lakes Union and Washington.

GOULD SEPARATION SUIT.

Two of Mr. Gould's Countercharges Announced.

New York, June 3.—Two of the counter-charges in Howard Gould's reply to his wife's suit for separation have been announced on the authority, it is stated, of Mr. Gould. One is that she is inordinately extravagant. The other is that Mrs. Gould's temper was a source of constant annoyance to Mr. Gould and many times placed him in embarrassing positions with his friends, besides being a bar to their domestic happiness.

Mr. Gould also says that his wife's display of jewels in public is a source of annoyance to him. In his reply Mr Gould will tell of suits brought against his wife by tradesmen. Some of these were for dresses and others for jewels. He will say that his wife was reckless in her expenditures, and will cite these suits as proof.

Mrs. Gould's defense to these various suits was always that she had been imposed upon by the tradesmen and the prices charged her were too high.

Louisville Carpenters Strike.

Louisville, Ky., June 3.—About 600 carpenters went on strike here Saturday. They demand an eight-hour day and a minimum wage of 37½ cents per hour.

AFTER SINEWS OF WAR.

Guatemalan Revolutionary Leaders to Procure Arms.

San Antonio, Tex., June 1.—A special to the Express from Merida, Yucatan, Mexico, says:

Colonel J. T. Pineda and Alfredo Alvaredo Sifontes, prominent in the Guatemalan revolutionary movement, sailed from this port Friday for New York, where they will represent the revolutionary junta in procuring arms, ammunition, money and other sinews of war. Before his departure Colonel Pineda said that he and Sifontes will return from New York before the actual commencement of hostilities and will lead an attack.

They are plentifully supplied with money and letters to prominent men resident in New York.

It was given out here on excellent authority that the revolutionary forces when the time comes to strike will attack the Guatemalan frontier in three separate places simultaneously. Colonel Pineda will lead a large force from Puerto Barrios, while General Toledo will attack from the Honduran frontier. The revolutionists are pledged to turn over General Jose Lima and Colonel Freebone to Mexico immediately upon their victory, to be tried in Mexico City for the murder of General Barrillas.

FOOT OF HAIL IN TEXAS.

Crops Ruined In One of the Most Fertile Sections.

Liano, Tex., June 3.—One of the worst hailstorms that ever visited this section of Texas prevailed in the southwestern portion of this county, at House Mountain Thursday night. It was of such violence that wire fences were torn down and a large number of cattle, sheep, hogs and chickens killed; roofs torn off and trees stripped of every leaf and small limbs.

The storm lasted for more than an hour. The visited area is one of the most fertile valleys of the country and 10,000 acres of growing crops were completely ruined. Hundreds of pecan trees laden with fruit are ruined. The ice was more than a foot deep over the stricken district.

After the hail storm, a most violent rain ensued, entailing further losses and damage.

HAYWOOD SERIOUSLY ILL.

Defendant In Boise, Idaho, Trial Suffers Nervous Breakdown.

Boise, Idaho, June 3.—William D. Haywood, the defendant now on trial charged with the murder of former Governor Steunenberg, was taken seriously ill in his cell at the county jail early Saturday. Two doctors were called, and were with him for several hours. It is believed that the prisoner is suffering from a nervous breakdown. For some days he has complained of headaches and the guards at the jail say he has shown signs of much restlessness.

It has been plain, they say, that the strain of jury getting has been very hard. About 1 o'clock Saturday morning the pains in the head became ac ute. Physicians were called at once and administered opiates. Until these took effect, however, Mr. Haywood was in great agony ,and at times his cries could be heard in the jail yard.

King and Queen Give Thanks.

Madrid, June 3.—The first anniversary of the wedding of the king and queen of Spain was celebrated Friday by a solemn Te Deum in the palace chapel in Thanksgvng for their escape from the bomb thrown at them while they were returning from church from the marriage ceremony. Memorial mass at the church of Buen Suceso was attended by King Alfonso and other members of the royal family palace officials, ministers, officers of the Madrid garrison and the regiment which lost some of its men.

Entire Family Drowned.

Dallas, Tex., June 3.—Six negroes were drowned near Honey Grove, Tex., Thursday night, as a result of the sudden rise of a creek. The entire Stephens family, including parents and children, perished. Railroad schedules in north Texas are badly crippled as a result of recent storms.

MR. GAY MAKING A BIG SUCCESS

Manager of Colson Farm Secured Large Prices for Products.

HANDSOME OFFER REFUSED

A Cash Proposition of $4,000 for Crop of Ninety Acres of Cantaloupes on the Vines Refused, Because the Grower Expects Crop to Bring More.

W. F. Gay, manager of the extensive Colson farm at Arredondo, has demonstrated that he knew a few things practical in regard to farming, as he has made an excellent success of the farm, which is one of the best in the county.

From a small tract of one and one-half acres, Mr. Gay has already shipped 900 crates of cucumbers which have brought in the markets on an average of more than $1 per crate, and before the season closes he expects to ship about 1,400 crates. This is a pretty fair profit on the acre and a half of land, and friends of Mr. Gay are congratulating him upon his success with the cucumber crop.

Mr. Gay has ninety acres of cantaloupes, from which he expects to realize handsomely. He has refused a cash offer of $4,000 for the crop on the vines, and calculates on getting a great deal more, as the fruit is fine and even, of excellent quality, and is destined to bring fine prices in the Northern markets.

Mr. Gay is not only a practical planter, but a man of fine practical judgment, and this combination is proving very advantageous to him. He calculates on making a handsome thing financially from the farm this year, and while others may fall short on their expectations, he realizes that he will secure a fine success, because he has conducted his farm on a clear and practical basis.

ENTIRE FAMILY'S SKIN AFFECTIONS

Mother Suffered Six Years with Eczema—Baby Cured of Heat Rash—Father, Mother, and Child Have Scalp and Hair Troubles.

ALL GIVE THANKS TO CUTICURA REMEDIES

"My wife had eczema for five or six years. It was on her face and would come and go. We had read so much about Cuticura Remedies that we thought we would give them a trial. We did so, and it has now been about four years, and she has never had a sign of eczema since. She also used them both about a year ago for her scalp. She had very thin hair and Cuticura helped her hair greatly. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair and it does not fall out. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment, it would dry the heat up so much quicker than anything else. We give thanks to the Cuticura Remedies. Mr. H. B. Springmire, 323 So. Capitol Street, Iowa City, Ia., July 16, 1905 and Sept. 16, 1906."

THE DRINKING OF WATER.

It is said to be a fact that a great many people do not drink sufficient water. Whether this is due to the unpalatability of the water supplied to not a few of the cities of this country or to other causes, the fact is said to remain, and the statement is made that directly thereto is to be traced not a little of the sickness doctors are called upon to treat. Especially is this true of disorders of the kidneys and bladder, which organs are said to be greatly benefited by the flushing that naturally follows the free use of good drinking water. The lack of such flushing is asserted to be in large measure responsible for many of the kidney and bladder disorders with which physicians have to contend. A favorite and successful treatment for such cases, used by progressive medical men, consists of the administration three times a day of a tablespoonful of this prescription, which any first-class pharmacist can compound: ¼ oz. Fluid Extract of Buchu, ¼ oz. Fluid Extract of Uva Ursi, 1 oz. Amet Cordial, ¼ oz. Fluid Extract of Liverwort and 15 ozs. of water. A feature of this treatment is the direction to the patient to drink plenty of water and to continue the use of the medicine for at least a month, in order that the impurities which cause the disorder may be entirely eliminated from the system.

S.S.S. CURES SKIN DISEAS

No skin disease can exist without an underlying cause, and i instances that cause is either a humor in the blood or an excess o acids in this vital fluid. These humors and acids get into the blood, ally because of an inactive and sluggish condition of those members duty it is to collect and carry off the waste and refuse of the body, unhealthy matter is left in the system to sour and ferment, and so circulation becomes charged with the acid poison. The blood, in its to rid itself of this foreign matter, begins to throw off the humors and through the pores and glands of the skin. These coming in contac the delicate tissues and fibers with which the skin is so abundantly su produces irritation and inflammation on the surface, and Eczema, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfig skin disease is the result. External applications, while they soot itching, and are beneficial in keeping the skin clean, can never cure affections, because they do not reach the blood where the real trou located. A thorough cleansing of the blood is the only permanent cu skin diseases. S. S. S., the greatest of all blood purifiers, is the best ment. It cures by neutralizing the acids and removing the humors the circulation so that the skin, instead of being irritated and disease the exuding acrid matter, is nourished and soothed by a cooling, he stream of blood. S. S. S. goes down to the very bottom of the tro removes the foreign matter and thereby permanently cures every form of trouble. Do not expect to cure a blood disease with local applications a but begin the use of S. S. S., and when you have removed the caus skin will be free from disease. OLDEST M. E. CHURCH.

Tablets Unveiled Commemorating Its Foundation.

New York, June 3.—At the old John street Methodist Episcopal church, John street near Broadway, there will be unveiled Sunday a tablet commemorating the foundation of the oldest Methodist church in America.

On Tuesday night four other tablets will be unveiled in the church. At this ceremony Bishop Andrews will preside. Methodism was established in New York in 1766, the first preacher being Philip Embury. The first church was William street, known in those days as Horse and Cart street. The first house of worship known as the Wesley chapel was built in John street. It was dedicated in 1768. A second church was built in 1818. The present structure was built in 1841.

Queen Strolls in Palace Garden.

Madrid, June 3.—For the first time since the Prince of Austria was born Queen Victoria took a short stroll in the palace garden. With the baby prince in his arms King Alfonso went out on a balcony Wednesday while the guard was being changed. The soldiers saluted the king and prince.

Kaiser Gives Portrait to Society.

Washington, June 3.—The emperor of Germany, who recently accepted the honorary membership to which he was elected in the American Cross of Honor, has presented to that order a life-size bust portrait of himself in uniform and helmet. The royal arms form part of the top of the heavy gilt frame, while beneath the picture is the autograph of the emperor and the date 1907. The American Cross of Honor was organized in 1898. Its members are all recipients of the government life-saving medal of honor. President Roosevelt, the king of the Belgians and Andrew Carnegie "belong."

King's Yacht Is Launched.

Glasgow, England, June 3.—King Edward's new turibne yacht Alexandra, of 2,000 tons, was launched here and was christened by Princess Louise, the duchess of Argyl. The vessel, which is most richly fitted internally, is intended for the private use of the king and his family, and primarily for short cruises and visiting ports of limited depth of water. She is 300 feet long, has 40 feet beam and is 23 feet deep.

Italian Deputy Denounced.

London, June 3.—The Rome correspondent of the Chronicle says that the crown has begun proceedings against Guisseppe Romona, deputy from Avers, on allegations of his connection with the notorious Camoora. He has been denounced by a group of his fellow deputies as being president of criminal societies in his constituency.

There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. V. C. Havana, June 3.—Five persons were killed and eleven injured, four probably fatally, in a wreck Friday on the Cuban Eastern railroad, near Guanajacamo. One car loaded with workmen was wrecked.

THE WHITE BIRCH.

Peeling the Bark Ruins the Tree's Beauty Forever.

One of the loveliest of our trees is the white birch, with its graceful foliage and gleaming trunk, and yet how often it is robbed of half its beauty by careless hands!

The temptation to take off strip after strip of its easily peeled bark seems well nigh irresistible if one may judge by the countless forlorn trunks along our roadsides. Instead of silvery white columns standing out with conspicuous grace from the green of neighboring shrubs and trees, the trunks are marred by great black circles, the results of wounds inflicted by wanton passersby.

Too often this is done merely for the fun of seeing how easily the bark can be pulled off, and no thought is given to the feelings of the owner when he finds that one of his finest trees, in which he took great pride, has been robbed forever of its beauty.

The next time you are tempted to cut off birch bark, stop. Think of the injury to the tree and the injury to all who shall pass that way after you in depriving them of something they might have enjoyed but for you—the sight of that tree in all its beauty. Remember that the bark never grows again.

If you have in mind the making of some article for which birch bark is an absolute (?) necessity, can you not at least take it from some fallen log or from some tree well hidden in the center of the woods, removing only the outer layers, and those in such a way that the tree will suffer as little as possible? By doing this you will earn the gratitude of all wayfarers and landowners.—Plant World.

LITTLE POCKET PHYSICIAN.

Hyomei Is Guaranteed by J. W. McCollum to Cure Catarrh.

Thousands who have been cured by Hy-o-mei call the inhaler that comes with every outfit the "Little Pocket Physician," as it is so small that it can be carried in the pocket or purse.

There is really no excuse whatever for anyone having catarrh now that Hy-o-mei is so readily obtainable. If you have any doubt about its value, J. W. McCollum will let you have a complete outfit, with the understanding that unless it cures catarrh, it will not cost you a cent.

Do not delay longer the use of Hy-o-mei if you suffer with catarrh. This is a purely local disease, and Hy-o-mei goes right to the spot where the catarrh germs are present, destroys them, soothes and heals all inflammation and makes a permanent and lasting cure.

The complete Hy-o-mei outfit consists of the "Little Pocket Physician" and a bottle of Hy-o-mei and costs only $1, making it the most economical as well as only guaranteed treatment for the cure of catarrh. Remember that Hy-o-mei cures catarrh without stomach dosing, applying the medication and healing where the disease germs are present.

SPORTS AT SEA.

How the Long Trip From Madeira to Cape Town Is Enlivened.

The voyage to Cape Town from Southampton or Madeira is a long one, sixteen to twenty days, says the Travel Magazine. And so we find pastimes organized on board far transcending the ordinary concerts, amateur theatricals, deck games and the like familiar to all of us on the ordinary ocean going liner.

The programme is an ambitious one, comprising boxing, gymnastic drill, obstacle racing, cockfighting, cricket, baseball and football, egg and spoon races for men and girls and children, ordinary deck games and evening amusement, such as concerts and dances.

The sack race for grown men is the delight of all the children, who love to see their fathers tied up in sacks and progressing by kangaroo-like bounds, whose uncertainty is made still more precarious by the pitch and roll of the great vessel. Nor must I forget the bolster and pillow fights, with competitors perched on horizontal bars, with their legs tied beneath. Some fighters display rare gameness and staying power, so that the onlookers feel quite grieved when they "go under" in a very literal sense.

Now and then an unfair wag will coat his trousers with resin and thus contrive to keep his balance in a way enabling him to withstand all comers. Of course the prizes are made up of the entrance fees paid by competitors, which may amount to 60 or 80 cents per head.

NATURE PROVIDES FOR SICK WOMEN

LYDIA E. PINKHAM

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value.

During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

INTERESTING RELICS.

Date Back to the Sixth Century Before Christ.

Rome, June 3.—The continued revelations on the Palantine hill have resulted in the discovery of what is believed to be the original decorations of a temple of Asia Minor, dating back to the sixth century, B. C.

They were found in the most ancient of the Palatine temples, that of Victory, made famous by the worship of Cybele known in Greek mythology as the "Great Mother of the Gods."

The decorations according to the legend fell from heaven to Pessinus, the ancient city in Asia Minor, noted for the worship of Cybele, whence they were removed to Rome in 204, B. C.

Sensation in Spanish Naval Circles.

Madrid, June 3.—A sensation has been caused among naval and military officers here by the arrest of General Diaz Del Rio, inspector director general of marine infantry, following an altercation with Captain Fernandez Nino, minister of Marine, respecting the latter's decision to reduce the personnel of the navy. The minister holds that the service is oversupplied with staff officers, and he proposes to retire 345 of them of various grades, and also 43 non-commissioned officers, devoting the money thus obtained to the improvement of the naval equipment.

Cotton Prospects Are Discouraging.

Decatur, Ala., June 3.—The prospects of a cotton crop in this locality are more discouraging than for many years. Much of the cotton has been planted twice and still there is no stand. Much of the first planting was killed by the frost and early freezes and much of the seed of the later planting rotted in the ground. The weather continues cool and rainy and the plant is not growing as it should. Seed is becoming scarce and the present indications are that this country will not produce more than half a crop.

One Killed; One Seriously Hurt.

Birmingham, Ala., June 3.—Early Saturday while a locomotive of the Birmingham Southern railway was running from Pratt City to the prison mines it collided with four empty freight cars left on the main line and E. Ellis, a trainman, recently from Pittsburg, Pa., was killed, and Conductor Caldwell seriously injured, Engineer Hogan being badly hurt and another trainman injured.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

A FRANC FOR A LIFE.

Exciting Adventure With a Moslem Fanatic in Algeria.

Near the western end of Ouar in a lonely street (for most of the men were sleeping from 12 to 3 during the heat of the day) I met a tall, stalwart Riffi from the mountains, writes Rev. W. G. Pope, who was a missionary in Algeria.

Accosting him with the usual Arabic salutation, I asked him if he could read. He answered, "No."

"Where do you live?"

"In the mountain, twenty miles west."

"Have you a sheik who can read?"

"Yes."

"Then will you please take him this book, with my greetings, and ask him to read it to you all?"

"What it is—a Koran?"

"No; the story of the life of the Messiah."

He then turned and asked if I was a follower of the Messiah, to which I answered, "Yes."

Then arose his Moslem fanaticism, for he was an Aissaoua, a terribly fanatical section of the Moslems in Morocco.

Drawing his knife and holding it over me, he uttered one word, "Shahed!" (witness), meaning that I was to say, with my forefinger raised, "There is no God but Allah, and Mohammed is the prophet of Allah."

I felt white, but tried to look courageous and unconcerned. I remonstrated with him for so acting with his Amel's guest, but all to no purpose. He reiterated his one word, "Shahed!"

His knife was an ugly weapon. It looked like a piece of sharpened barrel hoop with two pieces of goat's horn fastened together to make a handle.

Knowing the Arab's love of an English knife, I asked him if his knife was an English one. He answered that he had made it himself.

Remembering that in one pocket I had a franc in silver and coppers and in the other a French louis, I determined to buy the knife if possible.

Taking out my small change, I decided to try that first. I referred to the fact that the English were very proud of their knives and I would much like to take back to my country a Moroccan knife to show what others could do and offered to purchase it.

The sight of the French coppers and a glistening piece of silver was too much even for his fanaticism. He undid his leather sheath, restored the knife to its place, looked once up and down the street to see no one was looking, then, with apparent joy, exchanged the knife for the money and the book and went off happy.

Which of the two felt the happier I cannot tell, but I never forgot that my life in Ouar was purchased back for a paltry franc.—Liverpool Post.

I.—The name of this corporation shall be The Dutton Bank, and its business, or businesses, as herein provided for, shall be conducted in the State of Florida and other States of the United States of America and in foreign countries, wherever necessary or desirous.

The principal office and place of business of the said company shall be in the City of Gainesville, Alachua county, Florida.

II.—The general nature of the business or businesses to be engaged in and transacted by said company, shall be as hereinafter mentioned and set forth, viz:

General Banking Business.

Transacting a general banking business; to have full power to exercise, by its board of directors, or duly authorized officers or agents, subject to law, all such incidental powers as may be necessary to carry on the business of banking, by discounting or negotiating promissory notes, drafts, bill of exchange and other evidences of debt, by receiving deposits, by buying and selling exchange, coin, bullion, and by loaning money on personal and real securities; to purchase, hold and convey real estate, as provided for by law; to establish branches or agencies in any city or town in this State, and exercise all the necessary powers and functions of a banking institution for the transaction of a general banking business, under the provisions of the laws of the State of Florida in reference thereto. To engage in, carry on and transact the general business of a safety deposit vault company, to procure or construct suitable vault or vaults for the safekeeping of papers, documents, instruments, moneys, bonds, wills, deeds, wares, property, jewels and valuables, of whatsoever character or nature, in suitable boxes or vaults for safekeeping for any person or persons, corporation, their agents or representatives, upon such terms and conditions and for such compensation or charges for such rental protection and service as the said corporation may determine upon from time to time.

General Powers.

To act as the agent, factor, broker, or representative of any person or persons, or corporation, or for their agents or representatives, in the purchase, sale, mortgage, management, care or maintenance of any property, real or personal, its rents, issues, products or profits, or in regard to the adjustment, settlement or payment of any loan or incumbrance thereon, to go under or execute any power of attorney in relation to any of said property, executing and delivering deeds, mortgages or other instruments affecting the title to such property, or creating or releasing liens thereon, to purchase, own, sell, encumber, mortgage and dispose of lands, products thereof, and properties, real and personal, of every kind and description whatsoever, and liens, encumbrances or mortgages on such real or personal property, of any nature, duration, or for purposes which are lawful; to subscribe for, purchase, receive, own, hold for investment, or otherwise, sell, dispose of, mortgage, sublet, pledge, hire, lease or convey, wherever possible or lawful, any stocks, shares, bonds, securities, notes, warehouse receipts, or other obligations or property of any kind, either of any person, persons or other corporation, and hold the owner and holder thereof, to exercise all the rights, privileges and powers of ownership thereof, to represent the same and exercise any voting power thereof, and conduct any business or transaction in connection with or appurtment thereto, in this or any other State or county; to invest the proceeds thereof in such manner as may be prescribed by the laws of the State of Florida, or by any regulations made under or in pursuance thereof, or by the by-laws of said corporation or in the discretion of the proper officers or board of directors of this corporation not inconsistent with the said laws of the State of Florida, or any regulation made under or in pursuance thereof; to conduct any part of its business or businesses, to have offices and agencies, to employ officers and agents at such places in this State and other States and territories and in foreign countries, as may be requisite and necessary for the carrying on of said business and furthering the ends of such corporation, such necessity to be determined in the discretion and judgment of its board of directors, to borrow money and to secure the same by mortgage and bills of sale, pledges, deeds, bonds, notes, contracts, covenants, agreements and obligations of any kind whatsoever for the furtherance of its purposes and business, including contracts, agreements, options or other indentures between the said corporation and individuals or other corporations, and between said corporation and any foreign government or the Government of the United States, or any State or Territory, county or municipality, or the authorized representatives thereof, in any of the lines of the business of this corporation; to make such by-laws in furtherance thereof as may be deemed best, and generally to exercise the said powers as may be incident to or convenient to the purpose or business of said corporation. To have, exercise and enjoy all the rights, powers and privileges incident to corporations organized and existing and by virtue of the laws of the State of Florida.

III.—The amount of the capital stock of this corporation shall be seventy-five thousand dollars ($75,000) to be divided into seven hundred and fifty (750) shares of the par value of one hunared dollars ($100) each, which shall be subscribed and paid for in lawful money of the United States.

IV.—The term for which this corporation shall exist shall be ninety-nine years.

V.—The business of the said corporation shall be conducted by the following officers; a president, one or more vice-presidents, a cashier and a secretary, and a board of not less than five (5) directors. The office of cashier and secretary may be held by the same person, who need not be a stockholder of said corporation. The number of the directors may be fixed from time to time by the by-laws, but at no time shall it be less than five (5) nor more than nine (9). The board of directors shall appoint a secretary and cashier and such other officers and agents of this corporation, except the president and vice-presidents, having such powers, duties and terms of office as may be provided by the by-laws, and all officers and agents so appointed by said board may be removed at any time in the discretion of said board of directors. The directors, president and vice-presidents shall be elected by the stockholders at each annual meeting.

The annual meeting of this corporation shall be held on the second Tuesday in January of each year. The date of each annual meeting may be changed by the by-laws. The stockholders shall meet on the second Tuesday in January, A. D. 1908, at the office of this corporation at Gainesville, Alachua county, Florida, at eleven o'clock a. m., for the purpose of holding the first election of officers and transacting such other business as may properly come before and be disposed of at said meeting, which meeting shall be the first annual meeting of the corporation.

Until the officers elected at the first annual meeting shall be qualified, the business of this corporation shall be conducted by the following named officers:

President—W. R. Thomas,

First Vice-President—C. W. Chase,

Second Vice-President—G. K. Broome,

Secretary and Cashier, Elbert B. Turner,

And Directors—W. R. Thomas, C. W. Chase, H. F. Dutton, G. K. Broome, S. J. Thomas, J. A. Maultsby and J. G. Nichols.

VI.—The highest amount of indebtness or liability to which the corporation shall at any time subject itself, shall not exceed the amount of its capital stock at such time actually paid in and remaining undiminished, by losses or otherwise, excepting that said company may become indebted or liable to an amount not exceeding two million dollars ($2,000,000), on account of demands of the nature following:

1. Money deposited with or collected by the company.

2. Bills of exchange or drafts drawn against money on deposit to the credit of the company or due thereto.

3. Liabilities to the stockholders of the company for dividends and reserve profits.

VII.—The names and residences of the subscribing incorporators to this corporation, together with the amount of stock subscribed by each, are as follows:

W. R. Thomas, Gainesville, Florida, 200 shares.

C. W. Chase, Gainesville, Florida, 200 shares.

The new pension law will be published in The Sun as soon as a certified copy can be obtained from the Secretary of State. So far a correct copy has not appeared in print.

Gen. Kuroki has set a mighty wholesome example for the distinguished men of this country. He has turned down all of the most tempting offers to contribute articles to the magazines.

Now that Lawyer Abe Hummel has been consigned to jail for perjury, the question will be asked as to how many of his undiscovered victims in New York are paying alimony under false pretense.

Now that the Legislature of 1907 is a thing of the past the people can rest in peace until time to pay their taxes under the new law. Not until then will they realize the heavy burdens placed upon them.

Senator Crill of Putnam county is to be congratulated upon having his pure food and geological survey bills enacted into law He has labored earnestly for these measures during the past ten years and The Sun rejoices to know that success has at last crowned his efforts.

The name, purpose and location of clubs not belonging to the Federation is asked for by the State secretary of the Florida Federation, Mrs. Kirk Munroe, for statistical purposes. Our canned beef is being refused more and more in Europe in consequence of the exposure of beef trust methods. During the ten months ending with April, 1907, there were only 13,032,703 pounds exported, against 94,730,872 pounds during the same period in 1906. In former years we exported 60 to 70 million pounds a year, and in 1891 the total reached 189 million pounds.

The candidates for Governor next year will in all probability be R. Hudson Burr, chairman of the railroad commission; Albert Gilchrist, former speaker of the House of Representatives, and T. A. Jennings, a native of Hamilton county, but now residing in Pensacola. The former two gentlemen are avowed candidates, and the latter will no doubt make formal announcement of his candidacy in the near future. Hon. Cromwell Gibbons of Jacksonville may also be a candidate.

With the return of the Internal Waterway Commission from its first trip down the Mississippi, the vastness of the problem before it begins to appear. Of course the improvements and control of the Mississippi is only one phase of the problem. That will be one of the main arteries of trade for water borne freight. But the great river is a good starting point for the investigation and the most remarkable thing that appealed to the commission was not the problem of making the river a desirable stream for freight traffic, but in getting the freight to take that highway. The members of the commission report that the river is in better physical condition than it has ever been before. It has been straightened and deepened and lightened by the Government from one end of navigation to the other. But the river traffic has been killed by the railroads. They have fought the steamer lines till the rate war has driven the boats off the river. There is not one-fiftieth of the trade on the river now that there was forty years ago. The railroads have gobbled all the wharfage facilities at all of the important manufacturing towns and have made the total cost of river freight to the consumer greater than railroad freight even when rates are nominally the same. One of the most serious phases of the problem will be in building up the water traffic that has disappeared. It is an even more perplexing problem than dredging the channel for the freight to be carried through.

The action of the Secretary of the Interior in dismissing thirteen old and faithful clerks from the Land Office was rather hard-hearted on the face of it. The action will be followed by similar dismissals in the case of about 100 others. This is pretty severe on the old clerks who are let out through no fault of their own except old age. But it may have the effect of hastening the passage of the Civil Service Retirement Bill which, with good reason, is eagerly looked forward to not only by the Government employes of Washington, but of all other parts of the country. In the case of the Land Office clerks, the old people had been retained on the rolls largely out of charity, copying the Land Office records in pen and ink simply because they did not know how to use typewriters. The work of the office was falling behind and Mr. Garfield, the new Secretary of the Interior, being a strong, energetic young man, took the step that none of his predecessors had ever had the heart to take and dropped the old clerks from the rolls. Many of them will become objects of charity, some of them of public charity. They will serve as bitter examples of the sin of growing old in the Government service. But perhaps their plight may hasten the day when clerks will learn to be more thrifty and lay up something for old age.

The latest Republican plan to get rid of the surplus is to pension the Government clerks that have become too old for active work. If that is done all employes of the Government, whether clerks, artisans or laborers, must in all fairness receive the same treatment. With a civil pension list added to the military pensions the increased Government expenditures would be a good excuse for further postponement of tariff reform.

Those who like "schnaps" or good old Holland gin will be glad to know that the administration has agreed to reduce the duty 25 per cent, and in return our products are to be admitted to Holland as from a "most favored nation."

Beware of Ointments for Catarrh that Contains Mercury

As mercury will surely destroy the sense of smelling and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle.

The announcement has been made that the medical college, the first college of the University of Manila, is about to be opened. The Philippine Government has appropriated $62,500 for the first year's support of the new institution and the plan is to add other colleges to it and make the institution the premier university of the orient. There will be chairs of the usual sort in the medical college, but special attention will be paid to tropical diseases. This will open up an almost untouched field of research for this country, and with the extensive tropical possessions the United States has acquired, should prove a very valuable addition to our scientific knowledge This country has already given to the world the mosquito explanation of yellow fever, the most important contribution to medical knowledge since the discovery of antiseptics. And there is now an excellent chance for further notable achievements in the same field.

Chairman Taggart, who was in New York last week, was interviewed on the Presidential outlook. "Geographical lines have been eliminated from the map," he said, answering a question as to where the next candidate was to come from. Commenting on this statement The Standard-Union of Brooklyn said: "Taggart's declaration anent sectional lines in 1908 is calculated to lend strength to the movement now on foot in the South to put forward a candidate from that section —the first one since the war."

For over a year the price of wheat has been below the cost of production, although it was protected by a tariff of 25 cents a bushel. Now the price has advanced 30 per cent in consequence of the fear of a short crop. Do the Republicans claim the advance is due to an all-pervading Republican prosperity produced by tariff protection? If so, how do they explain the low price of wheat that has prevailed before the fear of unkindly nature caused the speculators to boost the price?

The Charlotte Observer thinks Mr. Bryan could not beat Mr. Taft, but with the working men opposing Taft for his government by injunction proceedings when United States judge and the Protective Tariff League giving him, at best, but lukewarm support, any Democrat who can unite the party factions would have a reasonably good chance to win.

A WHISTLER STORY.

The Eagle That Was Made to Pose as a Fighting Cock.

Apropos of something Whistler once told a cockfight story so vividly that only a man with a sailor instinct could tell it as well, mimic it so keenly and enjoy it so thoroughly. It was a story of a strange species of the American cock, pictured to the smallest detail so beautifully that one forgot that it was a story.

Some American sailors were at a cockfight in a seaport town in England when one of them remarked to the owner of the champion:

"We have got an American cock on board that can whip any bird here."

"Go fetch 'im on," said the champion. "Chuck 'im in and see. If 'e licks one bird we 'ave plenty more to throw in that can lick hany blawsted Hamerican bird you can fetch 'ere."

"All right. We'll bring one," said the sailors. When they got aboard they rigged up an American eagle. After their own manner, they painted, trimmed, spliced and reefed fore and aft, transforming the eagle to a cock. When ready they went ashore to pit their new American gamecock against all England.

At the pit the sailors chucked in their cock, which looked around for other surprises as he backed close to the wall.

"Now, bring on your birds!" yelled the sailors. A strutting cock was thrown into the pit and was another surprise to the poor dismantled eagle. He backed up closer and closer to the wall, wondering what would happen next. The cock walked three times majestically around the circle, cuffing at his strange opponent, the eagle pitifully abashed and bedrabbled, crouching lower and lower and looking around and above him for an explanation of what it all meant, while the crowd were yelling madly for the English fighter. The eagle made himself smaller and smaller, but at last, finding that he could get back no further and thinking that something was expected of him, and, as the cock dashed at him again, stretched out his long claws and took his opponent by the neck.

Here Whistler ended with an imitation by motions of what the eagle did. He stretched out his arm, shaped his hand like a claw, which by this time looked like a real one, drew it to his mouth and with one bite pulled off the head as he thought an eagle might do it. Then he looked blandly about the room, as the eagle had done, at the astonished crowd and said, "Now bring on your other birds."—Otto Bacher in Century.

TOWNS WITH TROUBLES.

London's trouble is her fog.

Tokyo's trouble is earthquakes. In her worst 200,000 residents were killed.

The mistral is the trouble of Marseilles, an east wind that increases the city's death rate 50 per cent.

Calcutta's trouble is cholera and the bubonic plague is the trouble of Bombay. Each city pays to her trouble an annual tribute of 9,000 souls.

Bagdad's trouble is the "Bagdad button," a sore that attacks practically every resident and visitor, leaving a button shaped permanent scar.

Madrid's trouble is the solano, a summer wind from the southeast. It is exceedingly hot and is accompanied by blinding, choking clouds of dust, so that notwithstanding a temperature of 105 or 110 degrees all windows must be closed.—Philadelphia Bulletin.

The Science of Chemistry.

Chemistry did not become a science—in other words, chemistry proper did not exist—until the seventeenth century, and it was as late as the middle of the eighteenth century before it began to amount to much. The old alchemy undoubtedly contained the germs, or at least the possibilities, of the present day chemistry, but beyond this the relationship between the modern science and the ancient delusion is slight indeed. Still, it cannot be denied that it was in the foolish search for the "Philosopher's Stone" and the "Elixir of Life" that men first hit upon the discoveries which were destined to develop into the great science of today.—New York American.

The Sarcastic Cabby.

The London bobby is notorious for overgrown feet and hands. Likewise the London cabby is generally accredited with never being at a loss for a reply. One day a bobby lifted up his hand majestically to halt a cabby, but the latter crowded his horse ahead.

"Didn't you see me raise my 'and?" demanded the bobby.

"I did see the sky darken a moment, but my 'orse was shyin' at your feet," retorted the cabby as he whipped up and went on.—London Graphic.

Shut Him Off.

"Nothing."

"Nothing? But, my dear fellow"—

THE LIGHTNING ROD.

Franklin's Theory Was Known Away Back In Talmudic Times.

In an article on "Current Topics In Ancient Literature" J. D. Eisenstein says in the Sydney (Australia) Standard:

"The lightning rod was invented by Benjamin Franklin in 1752 to arrest the electricity of the thunder. When the information of the discovery reached Rabbi Saul Katzenellenbogen of Wilna, he said that the theory was not new, because it was already known in Talmudic times, and he showed a passage in the Tosefta (third century) where it says that 'on Sabbath it is permitted to place an iron near the hennery to safeguard the fowls from thunder and lightning strikes.' The Talmud vouches that 'there is nothing superstitious about this belief.' (Tosef. Shabb. chapter 6, end.)

"The system of telegraphy, in a crude manner, is curiously described by Judah b. Jacob Chayat in his commentary to 'The System of Theology' chapter, 'The Gate of the Chariot' (see page 218b. ed., Ferrara, 1558). Chayat is perhaps the first Hebrew author who transliterates the term 'magnet,' and he explains the physical phenomena as follows: 'If you break the magnet into two parts and separate them at any distance, even a thousand miles apart, any movement caused by a joining wire to one part will be repeated by the other part' (quoted also in Shelah, page 30a, ed., Amsterdam, 1708)."

Why Penmen Get Tired.

The average person has no idea how much muscular effort is expended in writing a letter. A rapid penman can write thirty words in a minute. To do this he must draw his pen through the space of sixteen and a half feet. In forty minutes his pen travels a furlong and in five hours a third of a mile. In writing an average word the penman makes in the neighborhood of sixteen curves of the pen. Thus in writing thirty words to the minute his pen would make 480 curves, 28,000 curves an hour and 86,400,000 in a year of 300 days of ten hours each. The man who succeeded in making 1,000,000 marks with a pen in a month was not at all remarkable. Many men make 4,000,000 while merely writing.—Minneapolis Journal.

BIG FRAUD CONSPIRACY.

Well Known Russians Engage In a Rather Unusual Swindle.

Odessa, June 3.—A sensation has been caused here by the arrest of a number of officials and well known lawyers who, for several years, have been engaged in a conspiracy to defraud the state of the revenue from estates whose heirs were missing or unknown. The plan of the conspirators, who operated chiefly in Odessa and Warsaw, was to obtain possession of such estates by the use of fraudulent documents or by bringing forward false heirs.

An order placed with an engraver of Vienna, for a duplicate of an official seal, lead to the discovery of the frauds. The persons implicated are said to have derived about $500,000 from the swindles.

A Mission That Failed.

The Sire de Joinville tells us in his "Histoire de St. Louis" how a certain Brother Yves of the preaching friars once met while crossing a street in Damascus at the time of the sixth crusade an aged woman who carried in her right hand a bowl of fire and in her left a bottle of water.

"Where are you going?" asked the Brother Yves.

"I go," said she, "to burn up heaven with the fire and put out hell with the water, and so I will make an end of both."

"And for why will you do this?" asked the friar.

"Because," said she, "I would that we did good neither for the joys of heaven nor for the fear of hell pain, but purely for the love of God, who deserves so well of us and who is able to deliver us from evil."

Forgotten Hotel Keys.

"I suppose," said a guest, "a good many forgetful people go off with your hotel keys?"

"This will show you," said the clerk. And he took from a drawer the following printed slip:

"The manager of the Blank hotel acknowledges with thanks the return of key No. —, which M—— by oversight carried away on departure."

So many keys, the young man explained, were mailed back by forgetful guests that it had been deemed advisable, as a time saving device, to have a key acknowledgment printed.—New Orleans Times-Democrat.

How Rossetti First Met His Wife.

It was Millais' picture, "Ophelia," exhibited at the academy in 1852, that provided his friend and brother preraphaelite, Dante Gabriel Rossetti, with a wife. Millais had been altogether at a loss for a suitable model for his picture, but at length secured one in the person of a charming young lady who was employed as an assistant behind the counter of a bonnet shop. She was the daughter of a Sheffield tradesman, a beautiful and lovable girl with a wealth of golden hair, by name Elizabeth Siddal. Young Rossetti straightway fell deeply in love with the fair model. He taught her to paint and ultimately married her.

Man's Precious Rib.

A young lady having asked a surgeon why woman was made from the rib of a man in preference to another bone, he gave her the following gallant answer:

"She was not taken from the head lest she should rule, nor from his feet lest he should trample upon her, but she was taken from his side that she might be his equal; from under his arm, that he might protect her; from near his heart, that he might cherish and love her."—Houston Chronicle.

More Adulteration.

"Mrs. Sandys," said the grumbling boarder, "I am going to write to the city authorities."

"Indeed, sir! What about?"

"About the quality of the water. It's disgraceful. Why, I detected a distinct flavor of coffee in it this morning."—Chicago Journal.

Giving Themselves Away.

Mr. Youngbusband (reading from paper)—"Married—Blanche de Smythe to Walter Wellington Beere." What old memories that name awakens! Mrs. Y. (blushing)—I never imagined you knew of my engagement to Walter. Mr. Y. (chillingly)—I was alluding to Blanche.—Illustrated Bits.

More Important.

"Did I understand you to say," asked Mrs. Chatters, "that your husband had no vocation?"

"Worse than that," replied the minister's wife. "I said he'd had no vacation."—Philadelphia Press.

The Locality.

"Are you in pain, my little man?" the kind old gentleman asked.

"No," answered the boy. "The pain's in me."

Know how to give without hesitation, how to lose without regret, how to acquire without meanness.—George Eliot.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

CARTAGENA.

Colombia Has the Oldest Walled City In This Hemisphere.

One of the few walled cities in this hemisphere and perhaps the oldest, is that of Cartagena, Colombia, South America. The wall, which is still standing and in excellent condition, stretches its irregular circumference several miles in inclosing what was one of the gayest, wealthiest and largest cities of the new world in the days of Spanish supremacy. It is said that $50,000,000 was spent in constructing this wall, and it must be remembered that three or four centuries ago that meant considerably more money than it does now.

The wall is wide enough to accommodate several teams abreast. Its top is flat in most places, while at intervals there stand sentry boxes, showing that the wall was meant to guard the light hearted residents within its inclosure from sudden attacks either by sea or by land.

At one end of the wall near the sea is still to be seen the government prison. Here there is a long row of cells, which are still kept for the use of prisoners. At present these offenders are much sought by tourists to the Spanish main, for many of the men confined there have for sale exquisite carvings on shell and wood.—New York Herald.

IN CASE OF FIRE.

The Landlord Told His Literary Guest How to Get Out.

In the days before the dawn of his fame it was the practice of a certain well known author to wander up and down the land seeking what he might devour in the way of suggestion and local color. In this way he had drifted into Arkansas, "roughing it," and not, as he expresses it, presenting an appearance calculated to inspire a hotel proprietor with unlimited confidence.

The only hotel in the town, a frame structure, seemed to have been built upon the theory that there was plenty of room straight up, but that ground had to be bought, and the wanderer was shown to a room on the third floor, reached through many narrow and winding passages. From the one window it was a straight drop to the ground.

"Say, how would I get out of this place in case of fire?" he asked the landlord, who had brought up his grip.

The other eyed him coldly.

"Waal," he drawled, "all yo' would have to do would be to show ther night watchman—the one with ther shotgun—a receipted bill foh yo' board an' lodgin' an' get him to tie up the bulldog."—Cleveland Leader.

A Happy Mother

Will see that her baby is properly cared for—to do this a good purgative is necessary. Many babies suffer from worms and their mothers don't know it—if your baby is feverish and doesn't sleep at night, it is troubled with worms. White's Cream Vermifuge will clean out these worms in a mild, pleasant way. Once tried always used. Give it a trial. Price 25 cents. Sold by W. M. Johnson.

Sore Nipples and Chapped Hands

are quickly cured by applying Chamberlain's Salve. Try it. It is a success. Price 25 cents.

THE POCKET SAVINGS BANK EPIDEMIC RAGES FIERCELY

....IN GAINESVILLE....

Beneficent epidemics are scarce, but such a one has struck Gainesville, and people of every station and occupation have the fever.

It is most interesting and instructive to study the constantly changing line of applicants for Pocket Banks as it files through The Sun's business office. There is the mother, bringing her daughter with her and securing a bank for the girl, another for herself, and inquiring anxiously whether she may have another for the boy who is at work. She receives it promptly.

Boys come—some are steady, serious-faced chaps who have begun to think on their own account, and who ask questions about the operation of the scheme which show the results of rubbing up against the world.

Then the High School girls and boys, gay and active, while the workman and business man "slip in" during the noon hour to get a bank for the boy or girl at home, after asking one or two leading questions to make sure there is no joke about the 25 cents.

.....THE PLAN IN OUTLINE.....

S. Bodiford & Co., druggists. Mr. Bodiford has traveled a great deal since graduating from college in Baltimore, and declares Gainesville is about the most attractive place he has yet seen.

Compliment to Prof. McBeath.

The Gospel Herald of DeLand, edited by Dr. Hulley, the president of Stetson University, has the following to say of the principal of our high school, who delivered one of the Stetson commencement addresses last week:

"Principal Tom. F. McBeath, Master of Arts, head of the high school at Gainesville, delivered the address at the commencement of the Normal School on Monday morning. Everybody who knows Principal McBeath may depend upon it that he measured up to the requirements of the occasion. Principal McBeath is one of our foremost school men in Florida. He is a thinker, an able writer, an able speaker, a wise counsellor, and what is more and better, he is a man of warm sympathies and a man of strong courage."

JEFF DAVIS' BIRTHDAY.

The Occasion Passed Quietly in Gainesville, Banks Only Closing.

Monday was Jefferson Davis' birthday, a legal holiday in the South. There was nothing to indicate the incident in Gainesville, however, further than the observance of the banks, which closed for the day.

Prof. Blair Honored.

Prof. A. W. Blair, head of the experimental station of the University of Florida, has returned from Stillwater, where he went to deliver an address before the horticultural society of that place.

Prof. Blair is one of the best posted men in horticulture and agriculture in the South, and his advice is considered of a high standard by those who are seeking knowledge in this direction.

Mrs. R. Wilson

Mount Vernon Lodge No. 20, Knights of Pythias, meets tonight at 8:00 in their Castle Hall over Dutton's Bank. Work in third rank in election of officers. Visiting brothers welcome. W. T. Pound C. C.; E. A. Strunk, K of R. & S.

To Our Friends and Patrons.

The closing of our banking department is now fixed for the 5th of July. This will be immediately succeeded by The Dutton Bank, a State institution organized by and to be conducted and managed by some of the most reliable and conservative men of the city and vicinity.

All deposits in the bank of H. F. Dutton & Co. will be transferred to the new bank, unless otherwise directed by the depositors, and business will continue without change or interruption of any kind. The new bank will forward receipts and all necessary papers to the depositors.

Parties holding time certificates of deposit can have them redeemed at once, with interest, or can hold them until their maturity, to suit the wishes or convenience of the holder. The new bank will issue certificates with like conditions if parties so desire.

We bespeak for our successors the same liberal patronage that we have received. They are men so well known in this vicinity that they will have already secured the confidence of others as they have of ourselves. They ask for your patronage, and will return in favors as liberal as a conservative method of doing business will permit. If our old depositors, who have been with us so many years, will extend to them the same confidence, favors and patronage that they have so liberally given us, they will add to the many obligations under which they have already placed us.

H. F. Dutton & Co. will handle cotton (bales of cotton) as usual at the old stand. Very sincerely,

H. F. DUTTON & CO.
